

SINCE 1983

The Sun Glow Difference

WINDOW TREATMENT &
CONTRACT SOLUTIONS

 From Takeoff to Installation

 SUN GLOW

PROUDLY CANADIAN

42 Years & Counting

1983 The Start of Something Great!

Since 1983, Sun Glow Window Covering Products of Canada Ltd. has been dedicated to the development, production, installation, servicing, and distribution of custom window treatments.

Founded initially as a carpet and drapery company, Sun Glow has a rich history of innovation and has evolved into one of Canada's foremost manufacturers of window shades.

Our Mission

We design and craft high-quality window shades that inspire and exceed the expectations of customers, dealers, & designers alike.

“I have dealt with Sun Glow for over 20 years. I support local, Canadian businesses. I support businesses run by women. The products are excellent quality and the service has always been exceptional.”

- Maria Carrusca,
Drapes and More

“It’s important for a small business to have a close relationship with their suppliers, and we are pleased to enjoy such a long-standing successful partnership with Sun Glow. We know that we can trust them to provide innovative products of excellent quality with modern designs and fabrics that continue to prove very popular with our clients. We’ve found their service exceptional – always available with expert knowledge and helpful solutions.”

- Kate & Mark,
Better Blinds and Drapery

Why Choose SunGlow

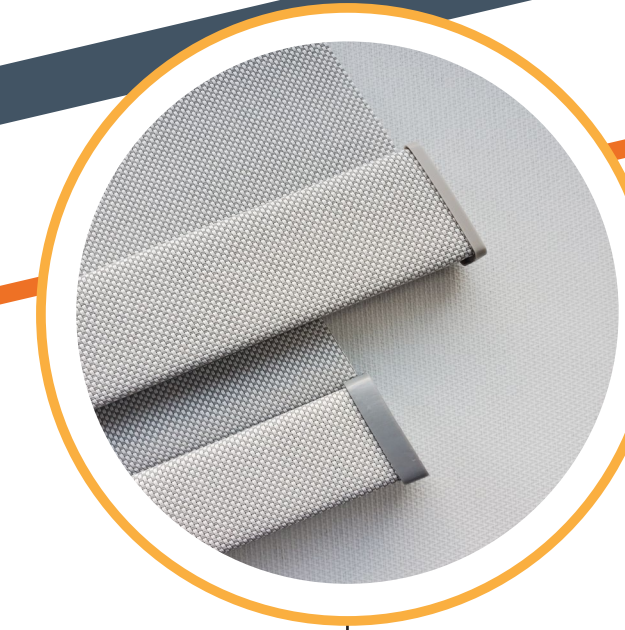

Dedication

We ensure quick turnaround times, seamless customer service, and on time order completion. We are dedicated to delivering what we promise.

Innovation

Sun Glow is committed to innovating sun shading solutions that solve customer challenges efficiently & cost-effectively.

Quality

We source the highest quality materials globally. From metal finishings to performance fabrics, Sun Glow uses only commercial-grade materials.

Made In Canada

- Local

Our proprietary systems require numerous custom made components such as extruded aluminum and molded plastics. Sun Glow is proud to support local manufacturers and suppliers in order to produce quality end products with the fewest possible carbon emissions.

- Brilliant

Our in-house engineers and industrial designers develop unique, compelling products and perform extensive testing on all our products. By designing, testing, and manufacturing in-house, Sun Glow maintains high quality and reliability of our complete product line.

- Efficient

Sun Glow keeps costs down through technically advanced production methods. Robotic cutting tables, rotating fabric storage, and thorough product testing all contribute to reduced production times, fewer wasted materials, and Sun Glow's peerless accuracy.

Contract Solutions

We provide custom shades for entire buildings

Sun Glow Advantage

1 | CONSULTATION

Our team will create and source optimal solutions.

2 | PROJECT COORDINATION

From day one all projects are managed by a dedicated project coordinator who ensures all project phases are managed in an expedient and strategic fashion.

3 | QUOTES YOU CAN TRUST

We help you stay on budget by providing quotes you can trust

4 | CAD SOFTWARE

Section detail drawings to clearly communicate how our product integrates into the building.

5 | IN-HOUSE INGENUITY

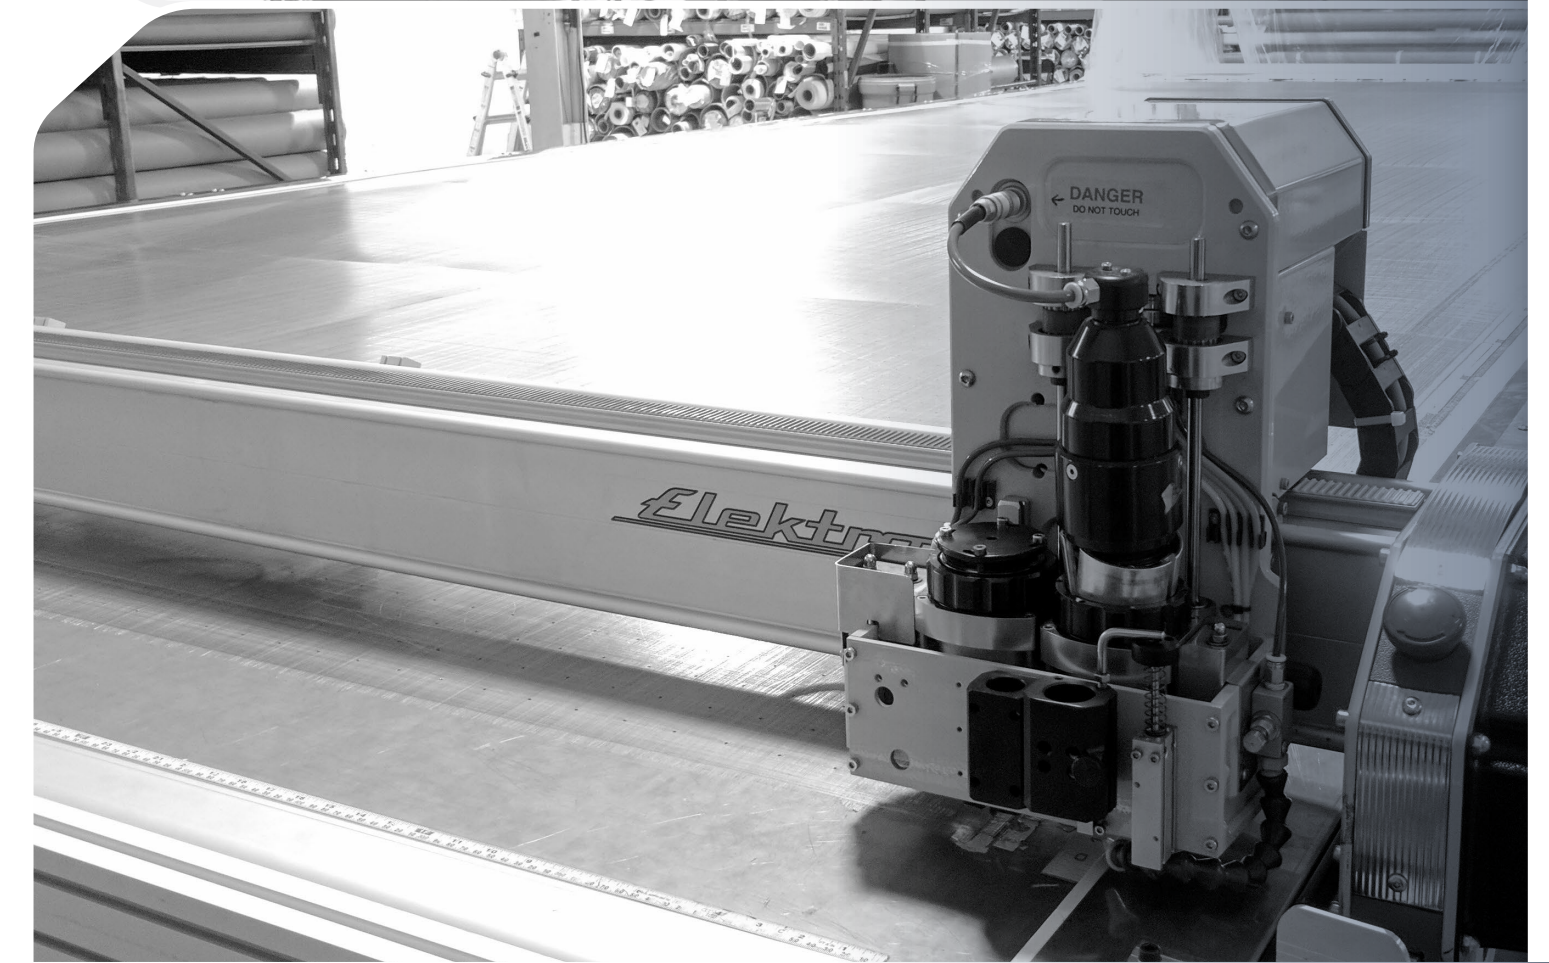

By designing, testing, and manufacturing our product in-house, Sun Glow can maintain products of the highest quality and reliability.

6 | RELIABLE INSTALLATION

Sun Glow's installation crew works closely with our project managers to deliver, install, and configure all products in a safe and timely manner.

7 | ARTFUL MANUFACTURING

Sun Glow keeps costs down through technically advanced production methods. Robotic cutting tables, rotating fabric storage, and thorough product testing all contribute to reduced production times, fewer wasted materials, and Sun Glow's peerless accuracy.

Vision

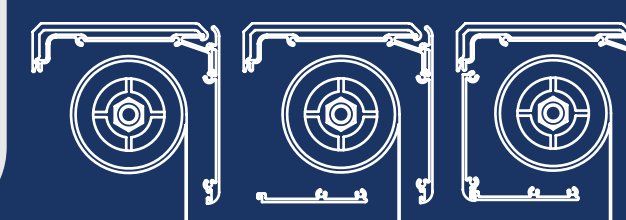

Modular Roller Shade Systems

Vision is Sun Glow's modular roller shade system. It provides solutions to many of the problems encountered by competing roller shade products.

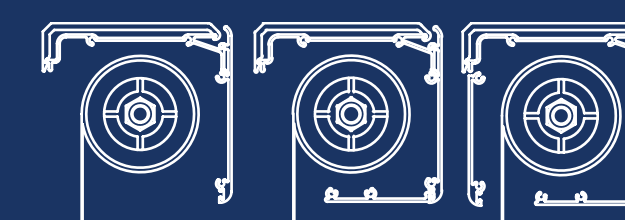

- Delivered as a completely assembled unit.
- Pre-balanced and tested to ensure ideal performance.
- Unique floating system allows for post-installation leveling and adjustments.
- Can be controlled by chain, Neo chainless, or automation.
- Modular design for cost-effective configurations.
- Minimal symmetrical light gap offers greater solar control and a balanced aesthetic appearance.
- Counter balanced system allows the shade to be drawn by the bottom bar without damaging the clutch.

Modular Design For Both V84 and V102

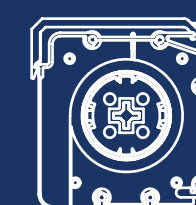

● Reverse Roll

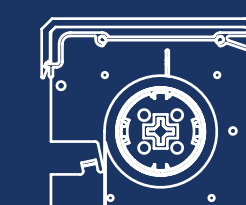

● Regular Roll

Multiple Sizing Options For Both Manual and Motorized Systems

● V84 (84mm)

● V102 (102mm)

Wire Guide

Secure Shades in Any Environment

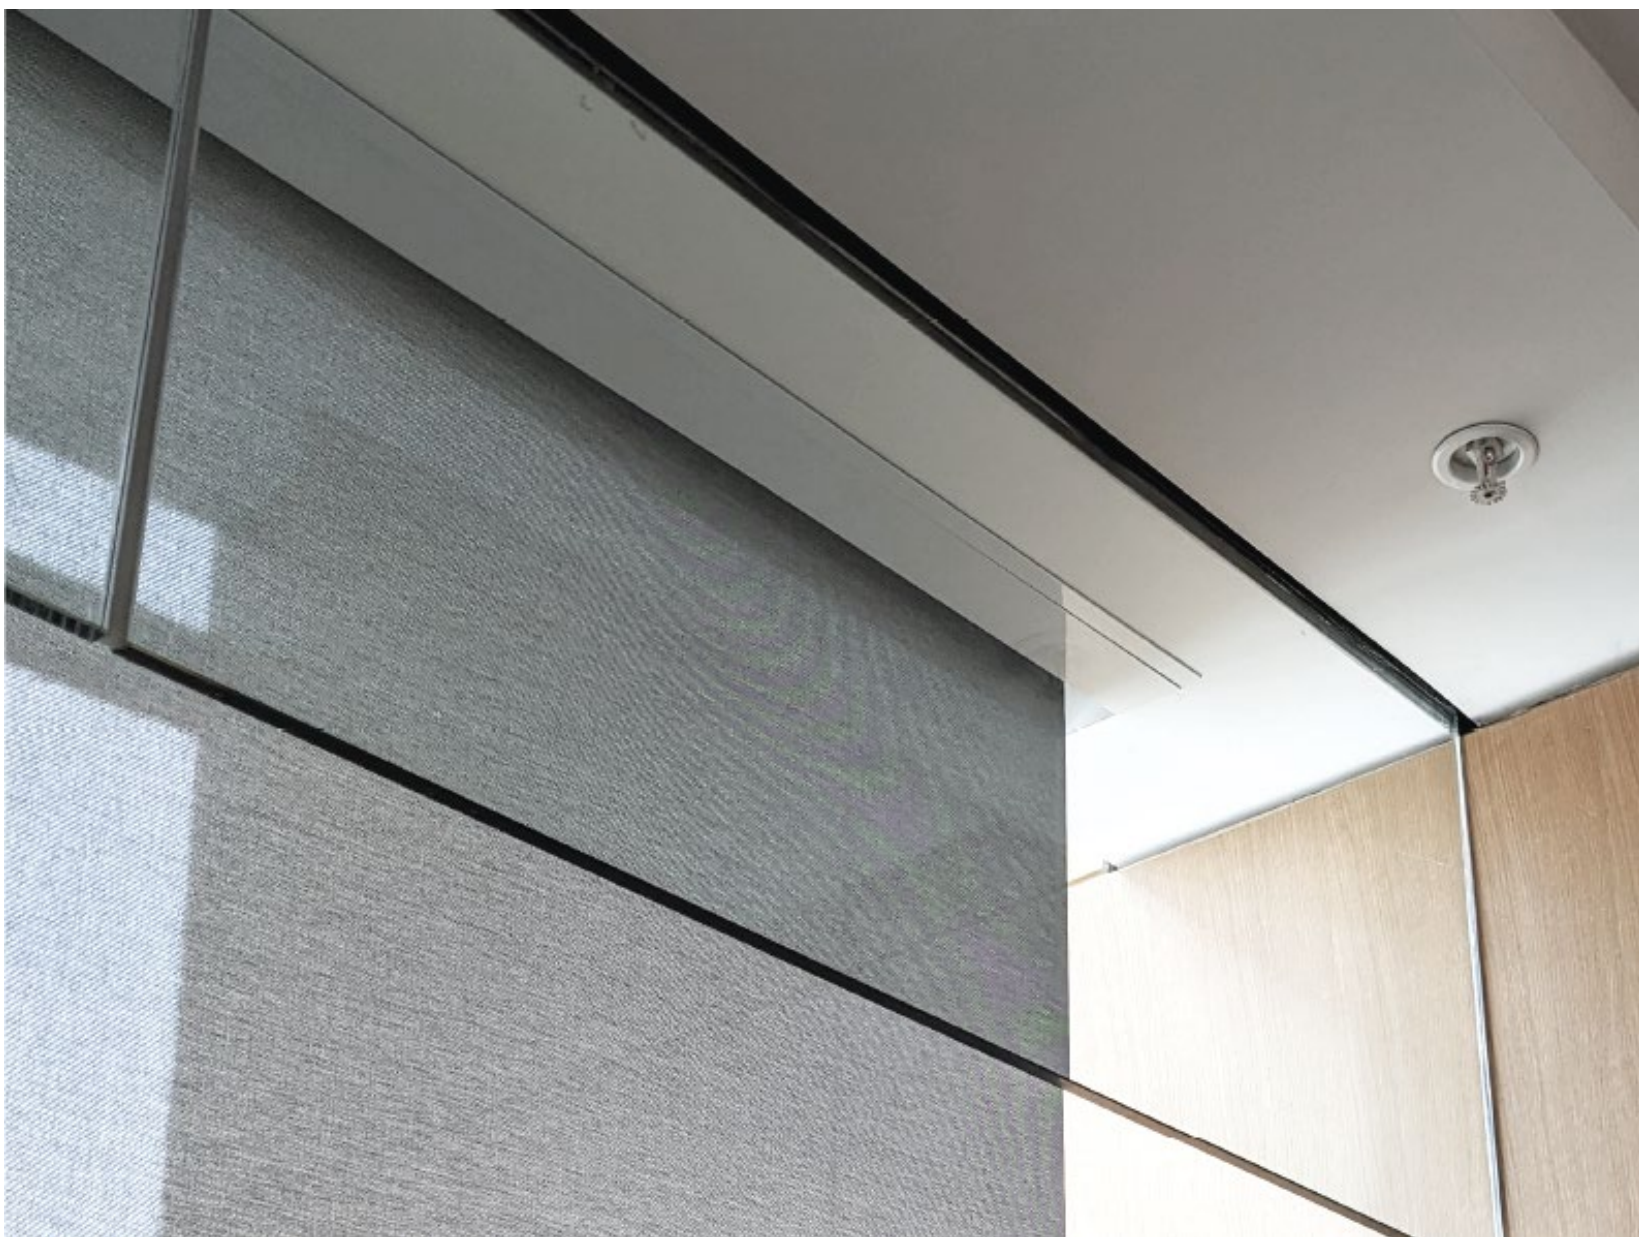

Some applications require shades that are anchored along their length to prevent unintended movement and swaying. Whether it's for a shade mounted on a swinging door, in a gusty open space, or even external applications, the wire guide will keep any Sun Glow roller shade nicely in place.

Hangers, & Closures

Conceal the Shade

These commercial grade systems are ideal for mounting roller shade components hidden in above ceiling pockets to conceal the shade when not in use.

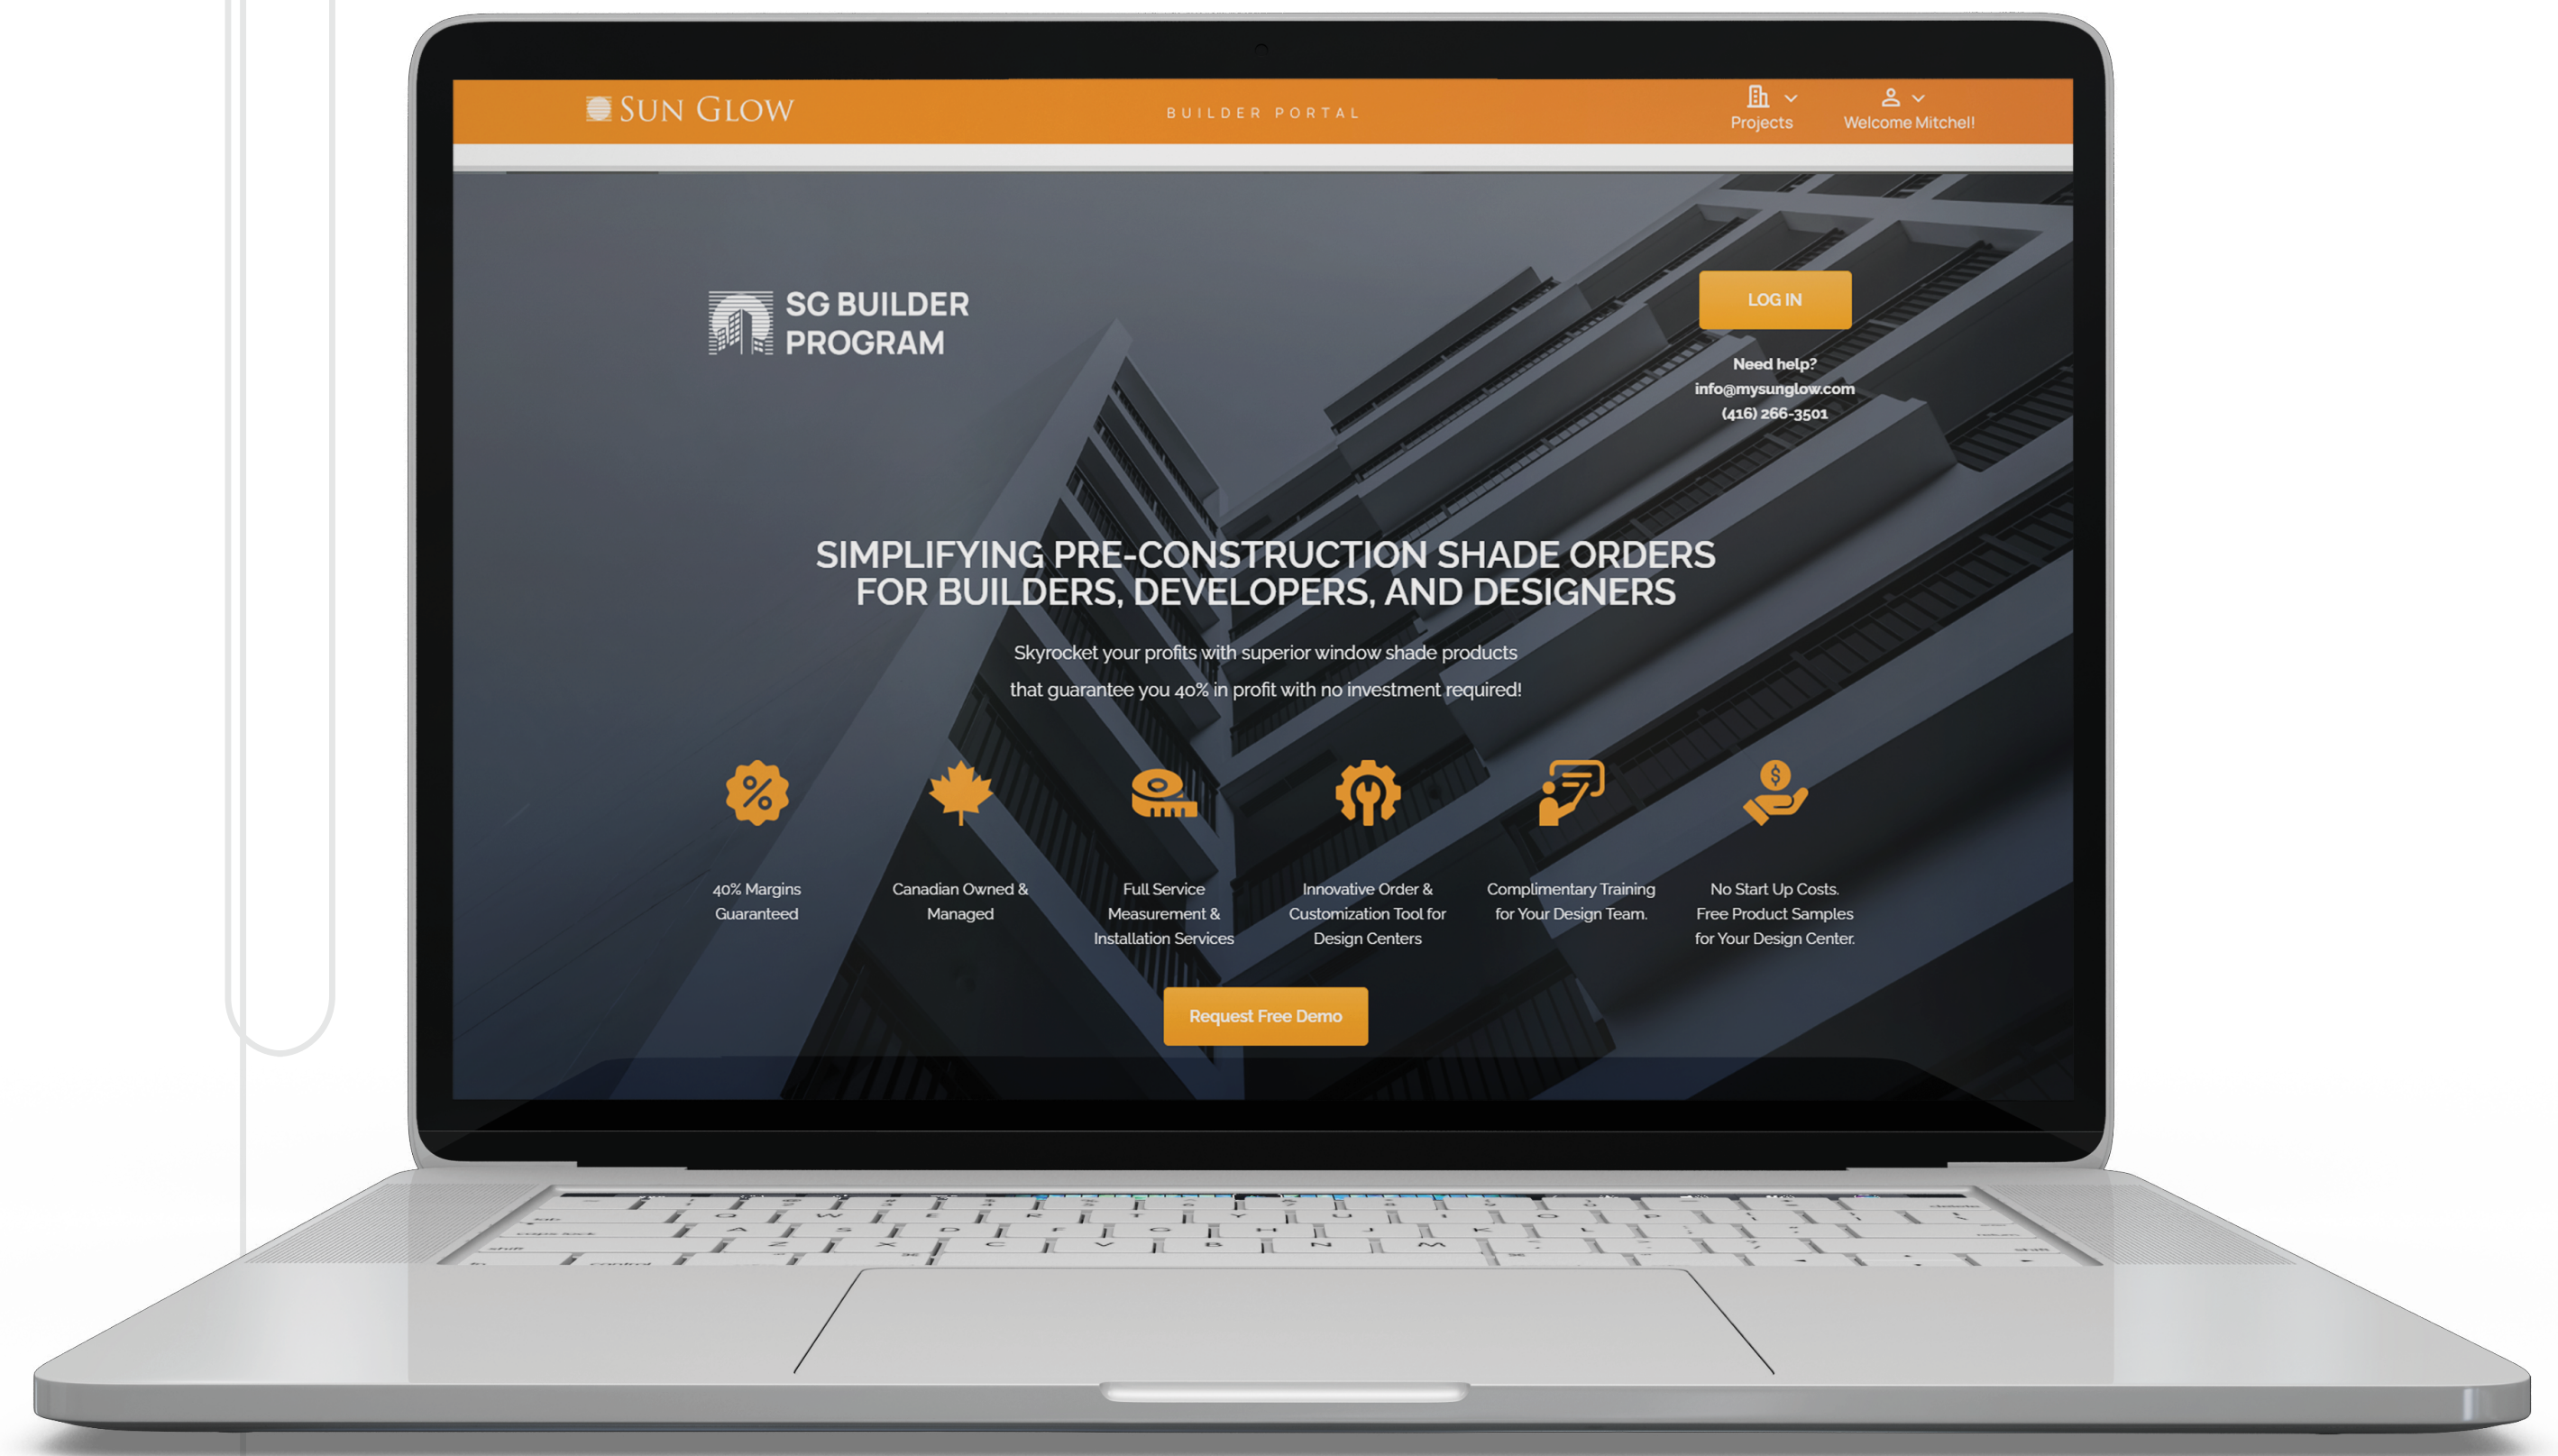

Design Center Program

Support your condo buyers with custom shades
and grow your revenue

SG Design Center Program

Simplifying Pre-Construction Shade Orders for Builders, Developers, and Designers.

Skyrocket your profits with superior window shade products that guarantee you in profit with no investment required!

Here's How Our Program Works...

1 | SUBMISSION OF BUILDING PLANS

Once you decide to incorporate Sun Glow window shades into your design center offerings, kindly provide us with your building plans. Our team will perform a comprehensive take-off to facilitate the programming of your project.

2 | CONSULTATION WITH DESIGN CENTER MANAGERS

Our team will arrange a meeting with your design center manager to curate your collection. Typically, we limit fabric options to three, with three colours in each, also a choice of three operating systems.

3 | EFFICIENT UPGRADE OFFERS

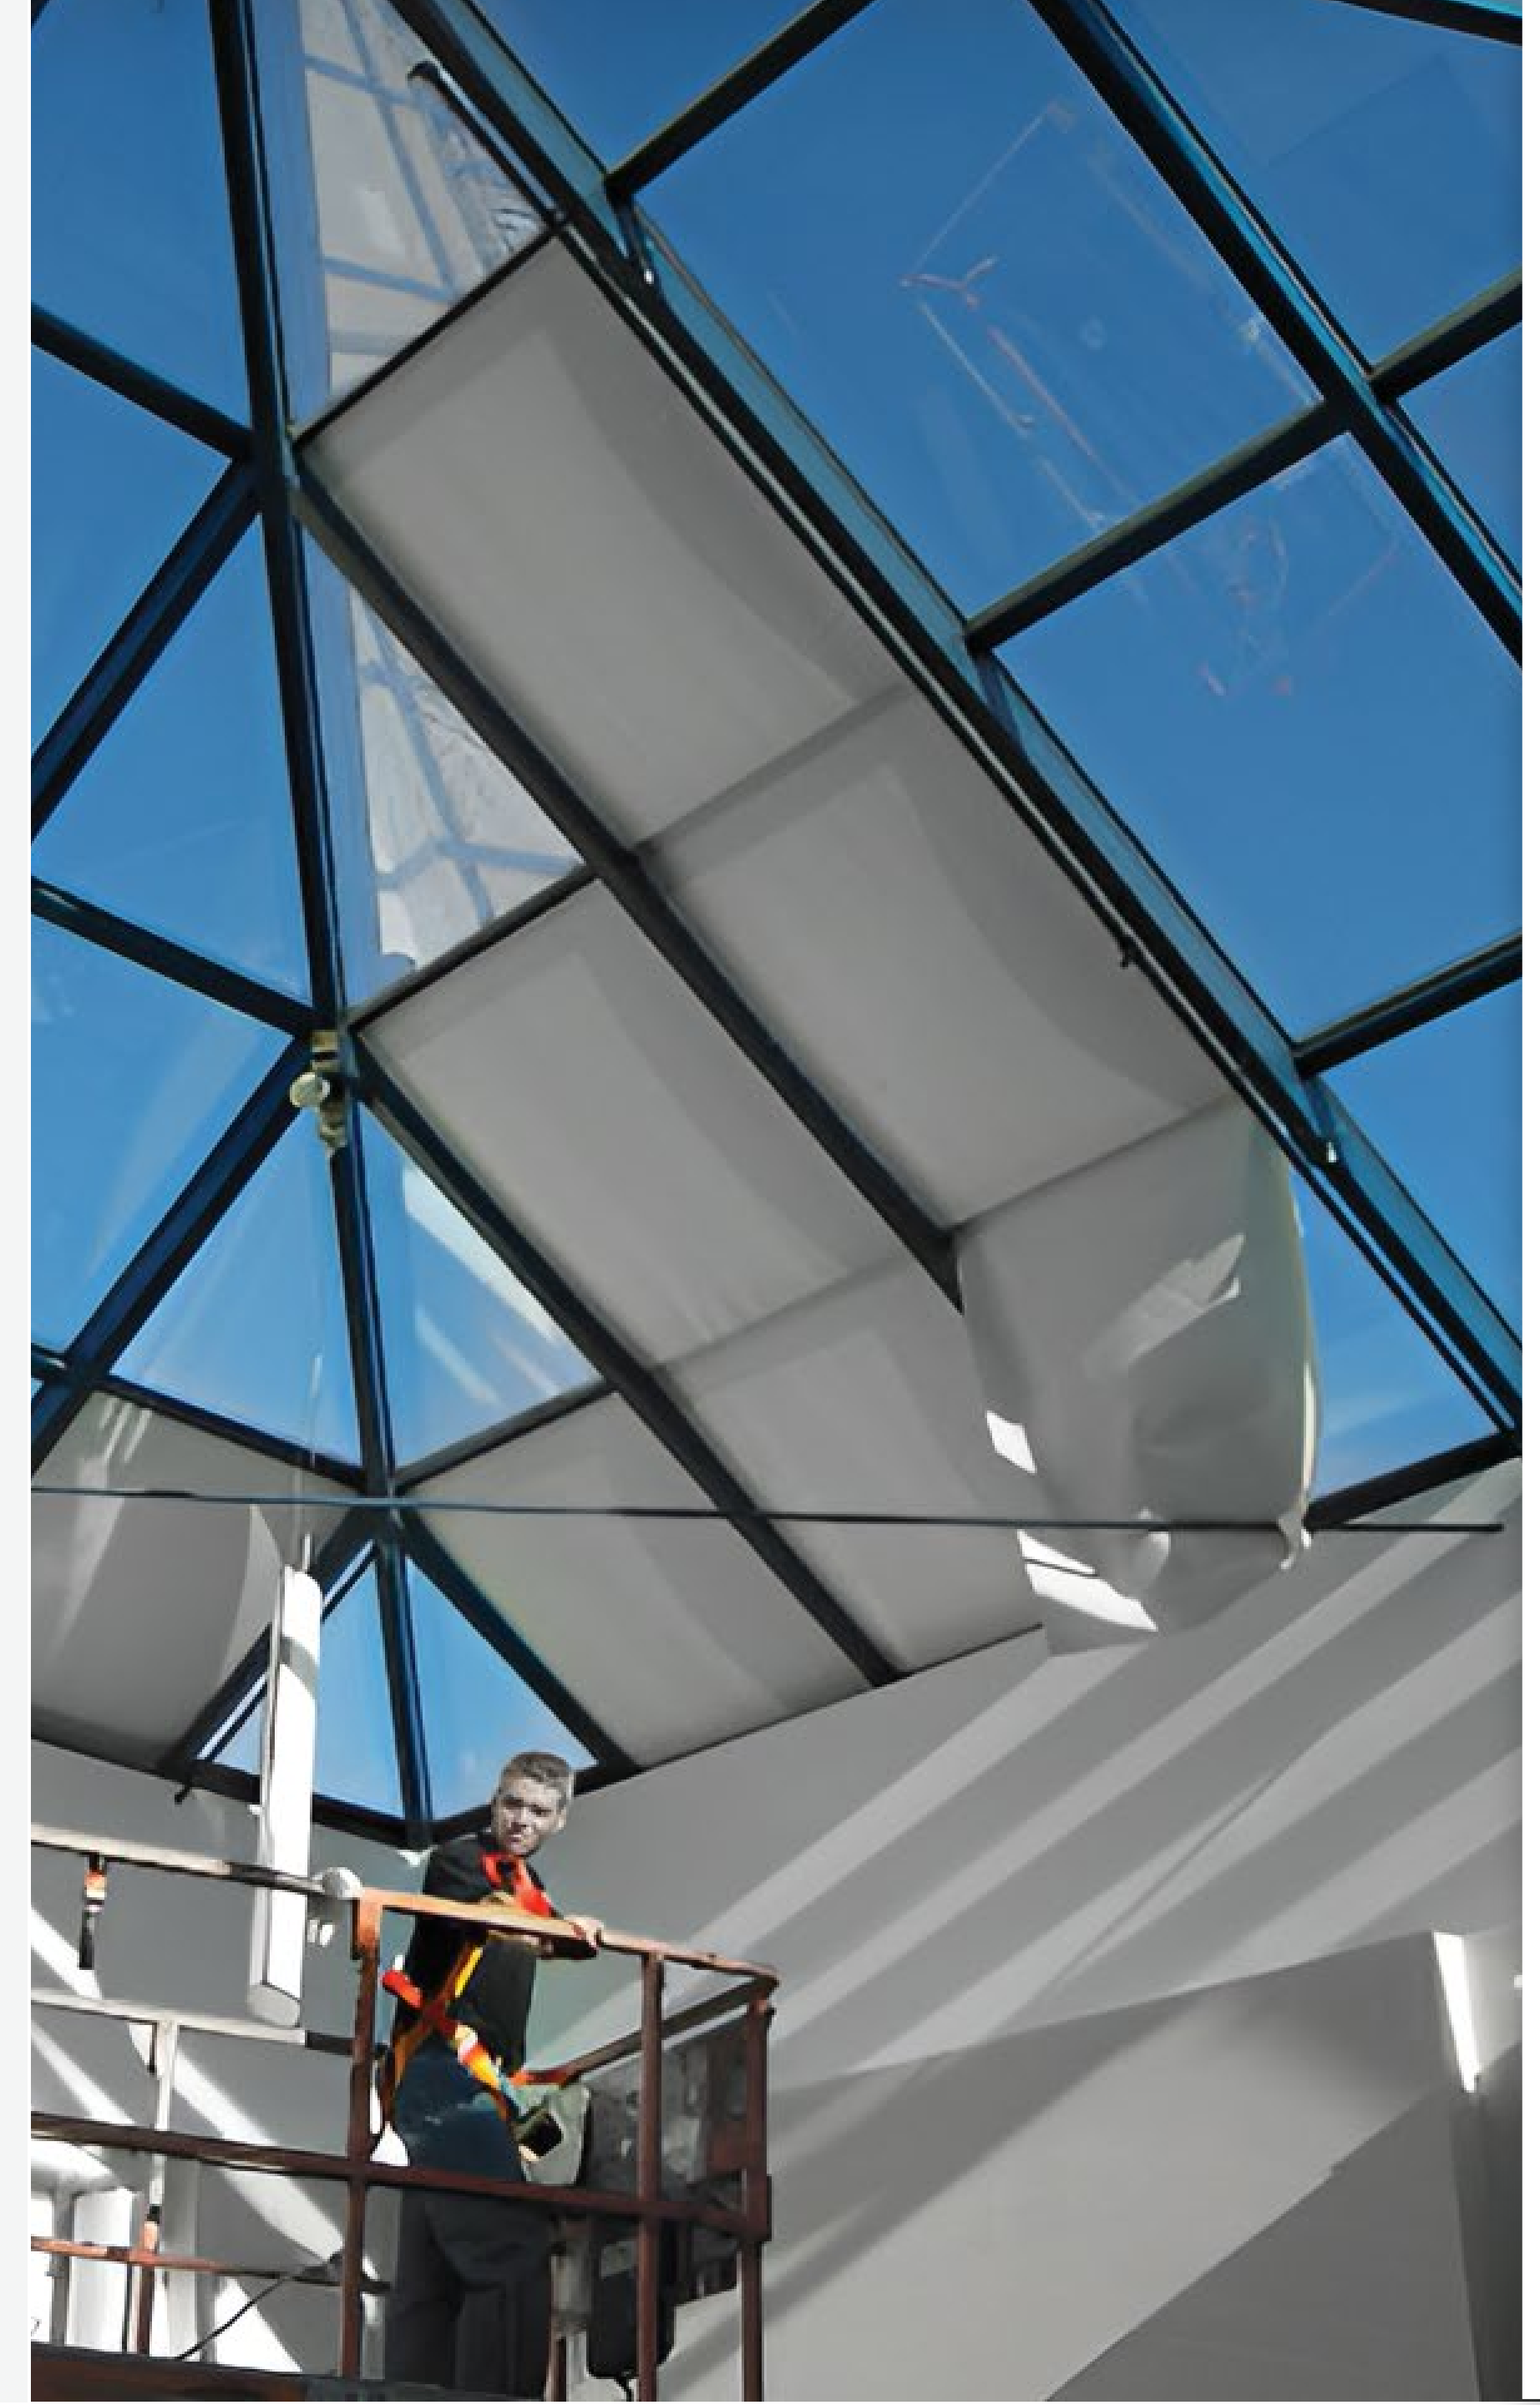

Facilitate window shade sales to your condo owners during their design center visits. Utilize our proprietary SG Builder program for instant quoting, streamlining the upgrade process.

4 | AUTOMATED PURCHASE ORDERS

Upon completion of meetings with all condo owners, simply notify us and submit a purchase order. The confirmed SG Builder program orders will constitute your purchase order, eliminating the need for additional paperwork. Prices are held despite long project completion dates.

5 | PROFESSIONAL INSTALLATION SERVICES

Once the shades are manufactured, our expert installation team will ensure completion before condo owners take possession. We provide seamless customer service and support post-installation.

Top Reasons to Collaborate with Us for Your Upcoming Project:

1 | EARN 40% MARGIN:

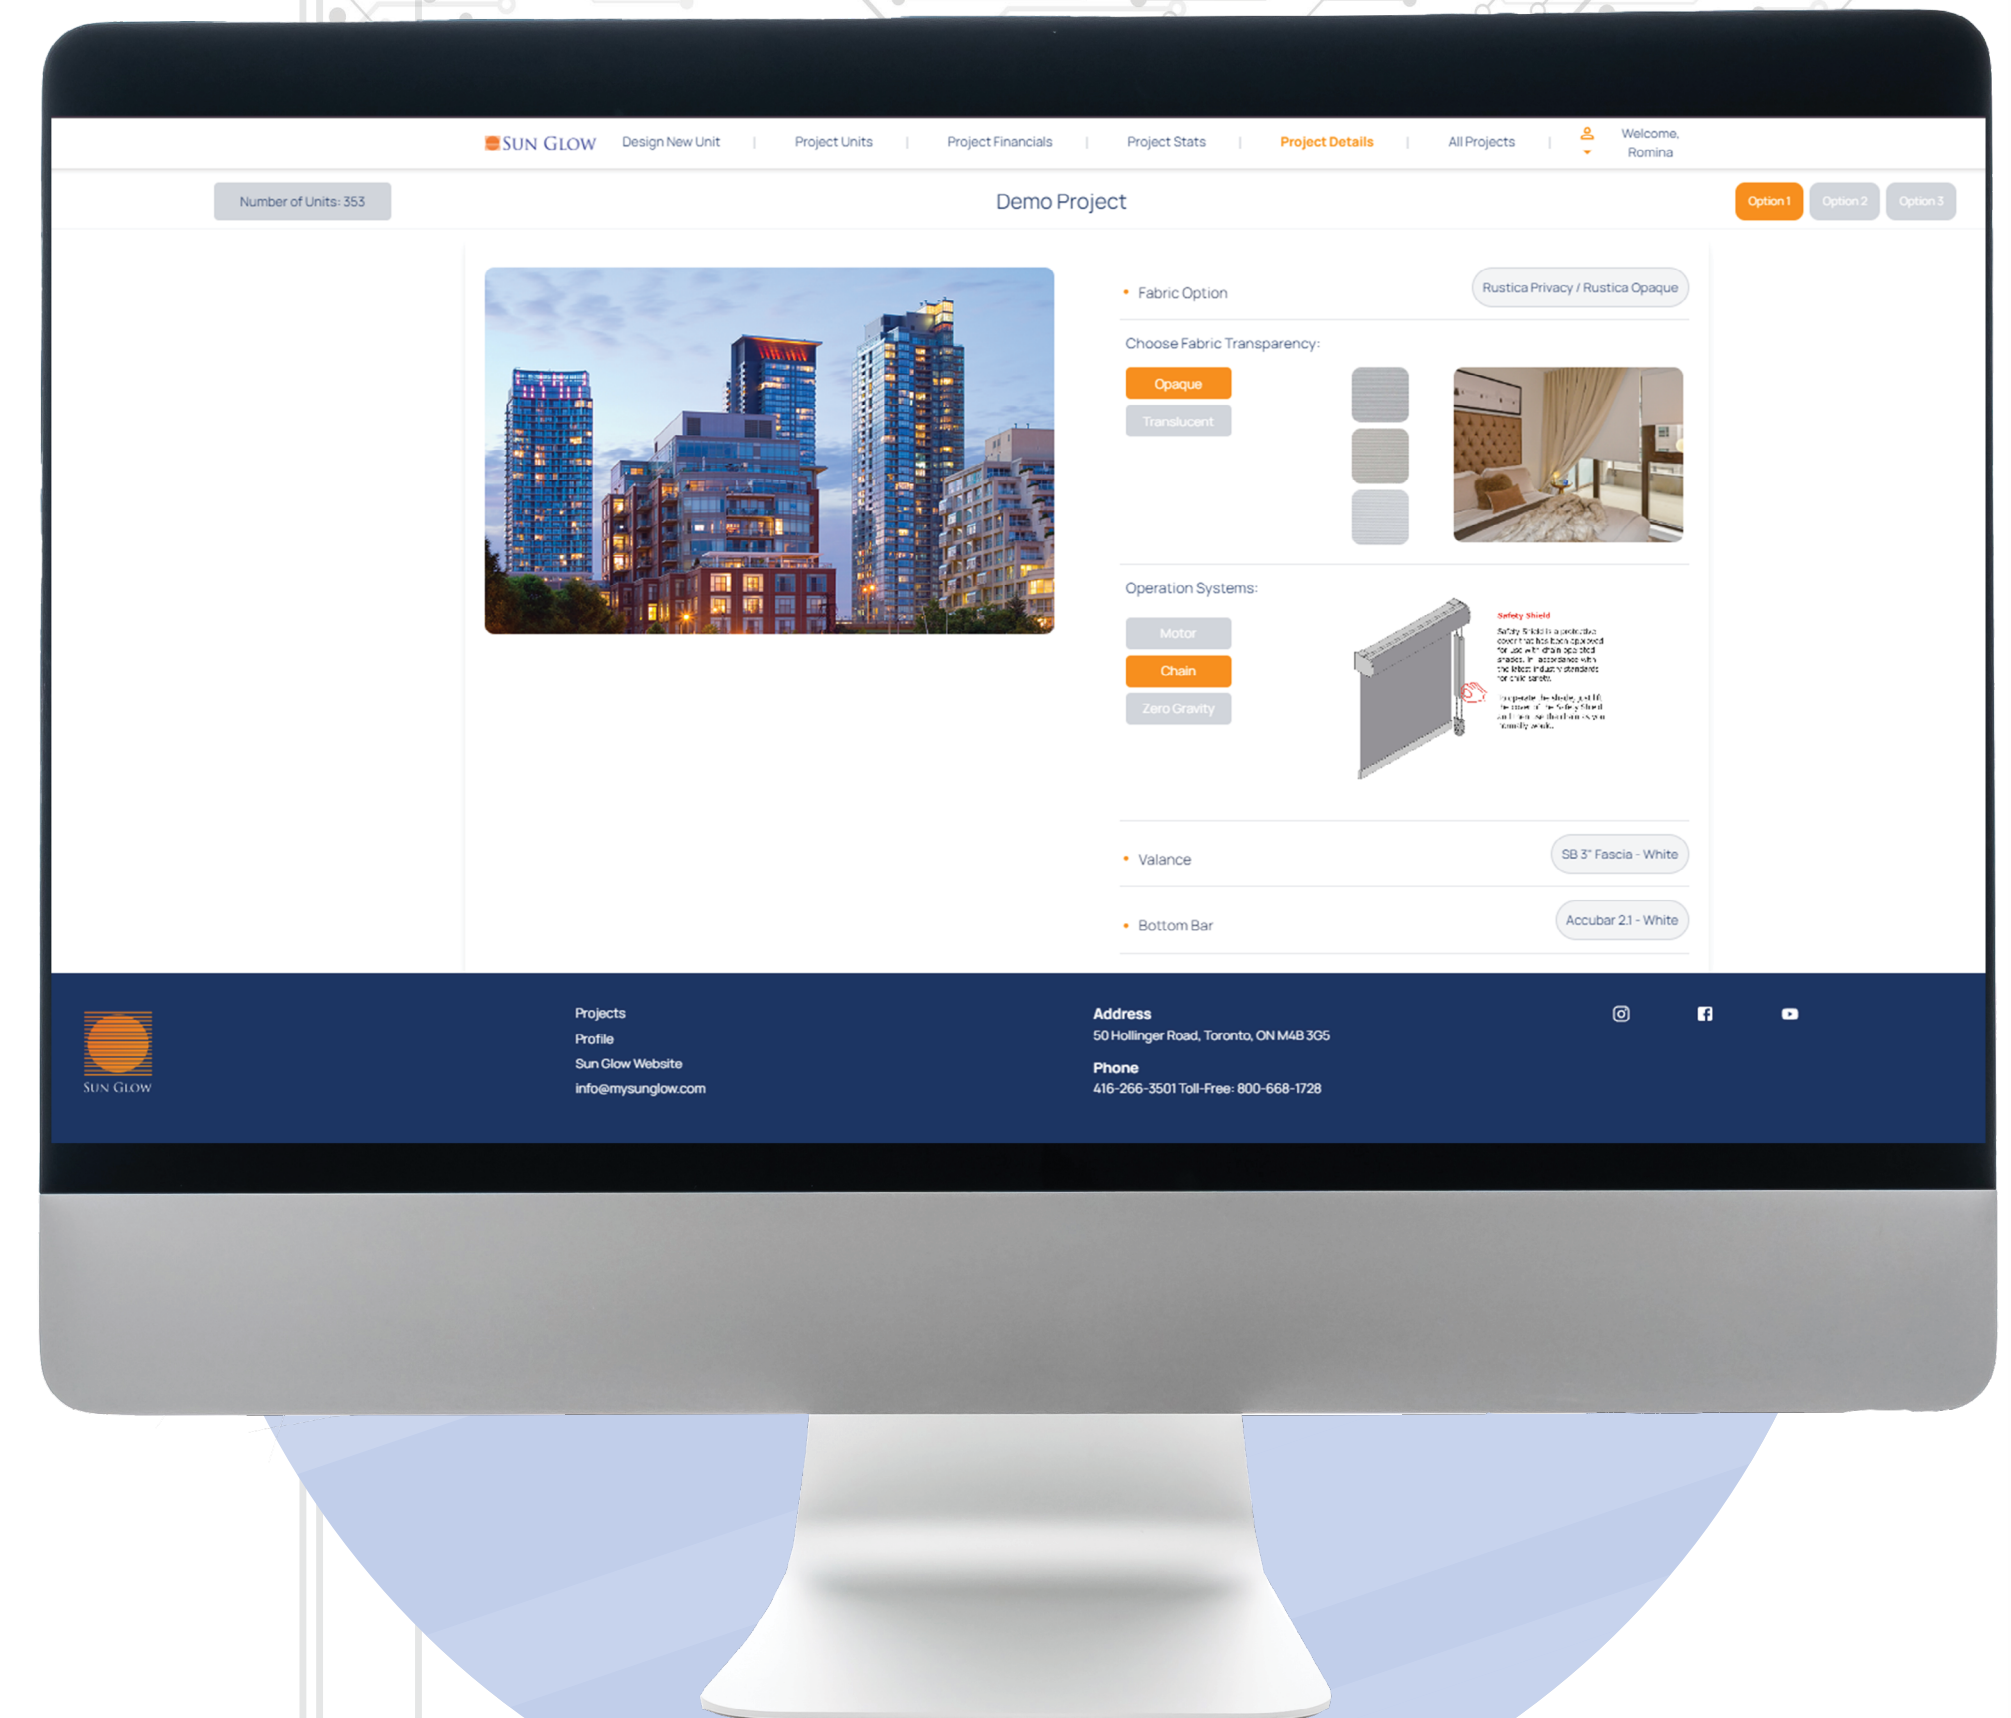

Sun Glow offers a lucrative opportunity with product margin through our SG Builder program.

2 | ZERO START-UP COSTS:

Begin Today for Free: Initiate the sale of Sun Glow shades in your design center at no cost. We provide all the necessary physical shade samples and a custom catalog of available fabrics.

3 | INNOVATIVE USER-FRIENDLY SYSTEM:

Seamlessly customize, quote, and order window shades for your end customers on a unit-by-unit basis.

Project Portfolio

There is No Substitute for Experience

Office

Office workers spend a significant part of their weekly lives in their workspaces. Comfort, safety, and environmental control are all important aspects to consider when implementing solutions in professional and corporate environments.

Sun Glow has specialized experience with sun-tracking and building management systems that can increase worker comfort while keeping HVAC costs to a minimum.

Engineering Office

Queen Richmond Center

Fitzgerald Building, University of Toronto

Ace Painting

Healthcare

Healthcare environments demand solutions that address privacy, hygiene, safety, and durability. Our range of window treatments includes privacy-focused options, anti-microbial fabrics, ligature-resistant designs, and products that prioritize worker safety. Sun Glow products are tailored to meet the specific challenges of healthcare spaces, ensuring a functional and safe environment.

Trillium Health Partners, Mississauga Hospital

Institutional

Institutions present unique challenges that demand durable and functional solutions. Privacy control, fire-resistant materials, energy efficiency, and compliance with safety regulations are just a few concerns that Sun Glow products are equipped to meet.

Daniels Building, University of Toronto

Robarts Library, University of Toronto

Myhal Centre ON, University of Toronto

Gordon Head Recreational Center

Toronto Pan Am Sports Centre

Hospitality

In the hospitality industry, aesthetics and functionality are equally important. Sun Glow's custom window treatments enhance the guest experience by offering superior light control, energy efficiency, and stylish designs that complement any decor. From hotels to resorts, our solutions provide a balance of luxury, privacy, and comfort that will impress guests and meet the needs of high-traffic environments.
