Overview

Vertical Sheer Shades are elegant and functional window treatments designed for large windows and patio or balcony doors. They feature vertical fabric panels that glide along a track and stack to the side or split in the centre to allow easy access to doors while providing light filtering and privacy. These panels are lightweight, washable, and replaceable for simple maintenance.

Product Features

- **Anti static:** Fabric repels dust and lint, keeping shades cleaner longer
- **Sun Protection:** Blocks harsh UV rays to protect interiors and help maintain comfortable indoor temperatures
- **Waterproof:** Fabric resists water absorption, suitable for humid or moisture prone areas
- **Stain resistant:** Easy to wipe clean and maintain a polished look
- **Mold resistant:** Built to inhibit mold and mildew growth for healthier indoor environments
- **Durable:** Washable fabric and replaceable panels make upkeep simple
