Interlude

Elegance in Motion

Introducing Interlude — a window treatment that artfully blends the practical benefits of blinds with the elegant softness of shades. This unique design features sleek horizontal bands of alternating sheer and solid fabrics, creating a dynamic interplay of light and privacy. With its contemporary aesthetic and refined functionality, Interlude brings effortless sophistication and modern charm to any space.

Illusions

Illuminate Your Space

Illusions — the perfect blend of elegance and functionality in window treatments. Designed with soft fabric vanes suspended between two sheer layers, Illusions allow you to easily adjust for privacy or gently filter natural light. With their refined design and smooth operation, they bring a touch of sophistication to any room.

Cellular Shades

Energy Efficient

Discover the perfect harmony of style and performance with our advanced Cellular Shades. Designed with insulating honeycomb cells, they help regulate indoor temperatures year-round—keeping heat out in summer and warmth in during winter—while reducing energy costs. These shades also minimize outside noise and block harmful UV rays to protect your interiors. Made from high-quality, anti-static, dust-resistant fabrics, they stay looking fresh and elegant with minimal upkeep.

Band Sizes

Wide Bands

When there's more window to cover, wider bands elegantly fill the space with style and finesse.

Narrow Bands

A narrower band is ideal for most standard windows and offers a perfectly balanced look.

Valance Options

Curved Cassette

The Curved Cassette and Compact Curved Cassette, made from high-grade aluminum, come in various matte finishes. Choose to keep them as is or wrap them in matching fabric for a seamless, stunning window treatment.

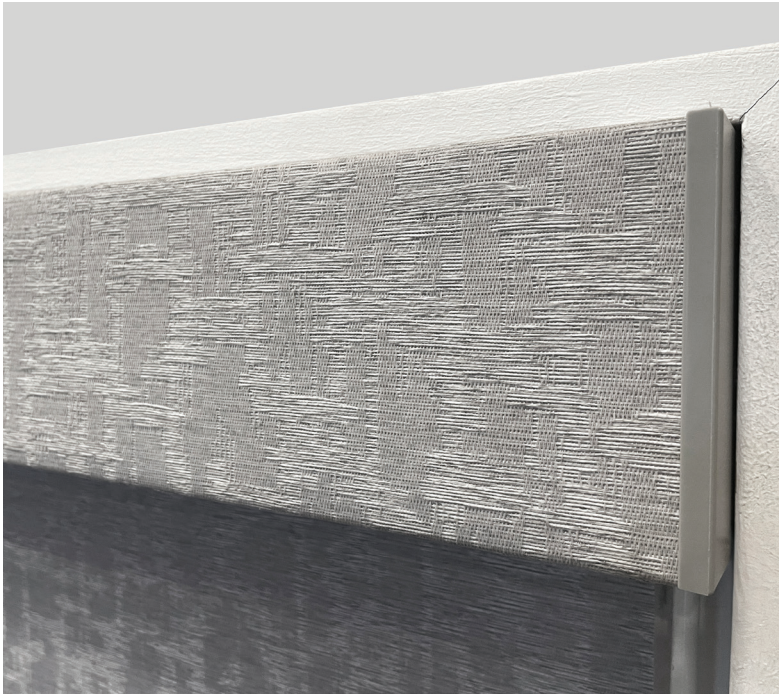

Square Cassette

The Square Cassette and Compact Square Cassette offer a sleek, uniform look with seamless installation and no on-site assembly. These cassettes can be fabric-wrapped and are designed with integrated internal brackets that help reduce light gaps.

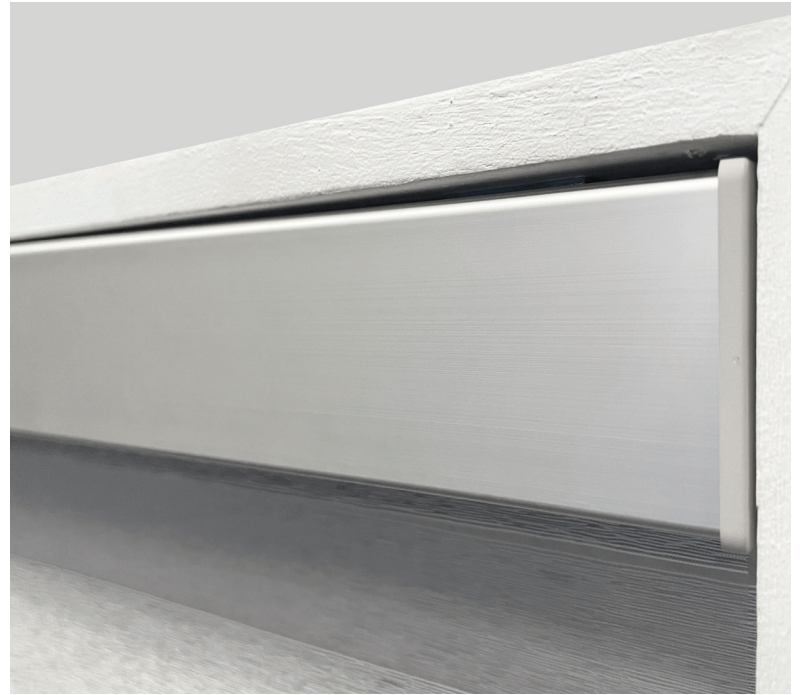

Valance Wrapping Options

Wrapped Valance

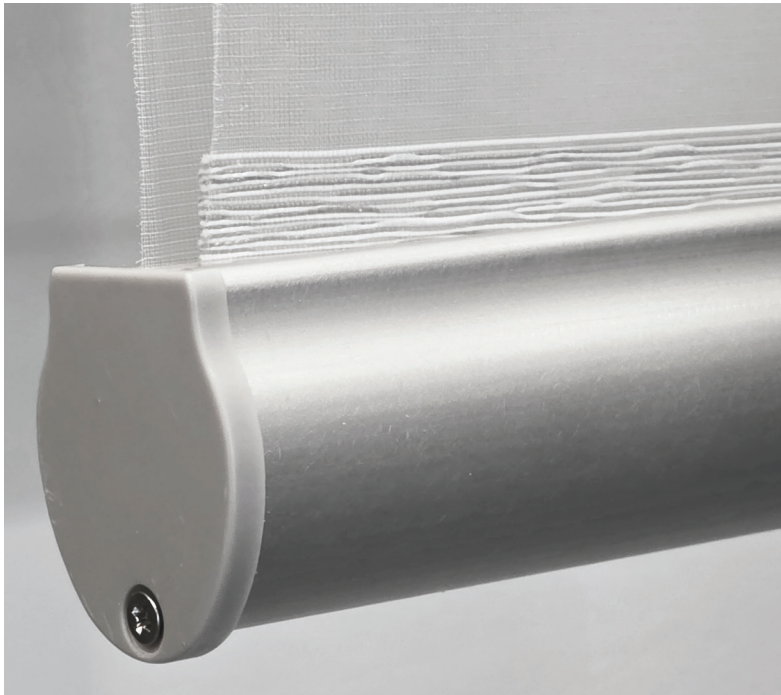

A fully enclosed headrail with matching fabric cover for a clean, finished appearance.

Unwrapped Valance

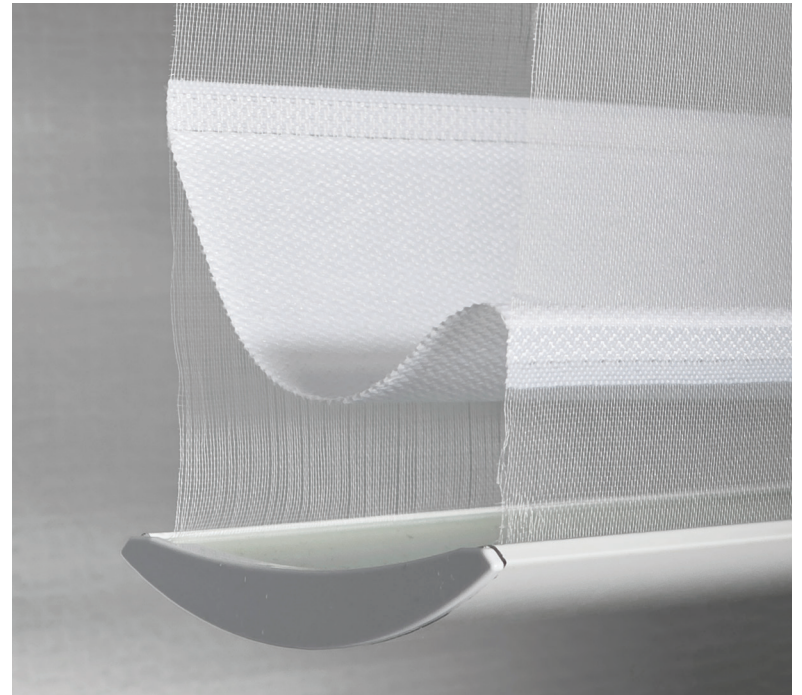

A minimalist headrail for a sleek, modern look. Available in white, black, anodized, and linen.

Bottom Bar Options

Interlude Bottom Bar 2.0

The aluminum Interlude Bottom Bar 2.0 is child-safe, durable, and ensures smooth fabric operation.

Illusions Bottom Bar

The Illusions Bottom Bar features a weight adjustment system that ensures even distribution, maintaining a level appearance and minimizing light gaps.

Mounting Options

Inside Mount

Inside mounting gives a clean, built-in look and allows draperies over the blind, but leaves small light gaps on both sides.

Outside Mount

Outside mount shades offer flexible valance options, fit shallow windows, visually enlarge openings, conceal imperfections, and ensure full coverage without light gaps.

Control Options

Cordless

Cordless cellular shades lift and lower smoothly with a gentle push or pull, offering a sleek look and enhanced child safety.

Chain

Simple, dependable, and colour coordinated. Interlude and Illusions can be operated using a manual clutch and chain system. All chain-operated shades now include the Safety Shield child safety device.

Zero Gravity

The Zero Gravity spring perfectly balances the weight of the blind. The result is virtually effortless operation. Open or close the blind fully, or anywhere in between, with the lightest touch of a finger. Compatible with Interlude.

STEALTH
AUTOMATION

Effortlessly manage the amount of sunlight and privacy in your space with just a tap of a button. Plus, set the perfect ambiance with your voice and smart home device. Experience the ultimate in convenience and comfort today!

somfy.

We carries the full range of Somfy systems, accessories, and components. Our Somfy experts advise and support our clients all the way from selection to implementation.

Motorization

Interlude, Illusions, and Cellular shades are compatible with a wide range of motorization and automation solutions from smart homes to building integration systems.

Design Options

Multi in One

Multi-in-One Shades provide a sleek solution for covering up to 3 adjacent windows under one continuous valance. Each shade operates independently with chain, zero gravity, motorized, or mixed controls.

Additional Light Controls

L Channel

L Channels reduce side light gaps, improving privacy and light control. Their sleek right-angle design blends into interiors and can be retrofitted to existing shades.

Cellular Light Control Options

Day & Night

Day and Night cellular shades combine privacy and opaque fabrics in one shade, offering flexible light control, privacy, and energy efficiency throughout the day.

Privacy

Privacy cellular shades gently diffuse sunlight, softening glare while maintaining privacy and a bright, natural glow in the room.

Opaque

Opaque cellular shades block nearly all incoming light, providing maximum privacy, darkness, and insulation—ideal for bedrooms, media rooms, or any space needing complete light control.

Simply Cellular Components

Transparent Handle

Cordless shades include a transparent handle, ideally centered on the bottom rail for balanced lifting and lowering. Wider shades may use two evenly spaced handles for better control.

Headrail

The headrail houses the operating mechanism and secures the shade in place. End caps are easily installed by sliding them into the rail ends for a finished look.

Bottomrail

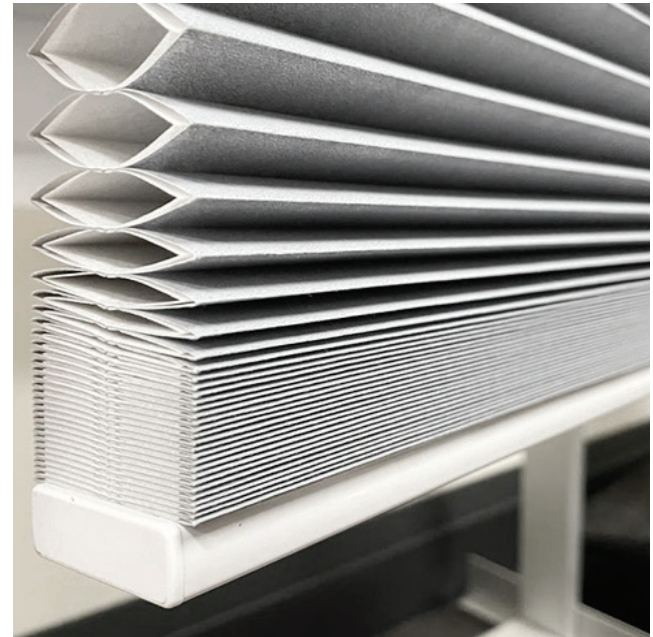

The bottom rail provides structure and weight for smooth operation. End caps match the rail profile and slide in easily for a clean, streamlined finish.

Custom Cellular Components

Headrail

Featuring a sleek aluminum profile, the headrail includes spring-loaded brackets that allows for quick, tool-free installation and removal. Its clean, modern design enhances both the functionality and aesthetics of the shade.

Bottomrail

With a slim, minimalist profile, the bottom rail is designed to match the headrail seamlessly. Available in White, Linen, Black, and Anodized finishes, it offers a cohesive and refined look across any window treatment.
