WINDOW TREATMENTS FOR YOUR LIFESTYLE

PROVIDE A SOLUTION

Address common issues: privacy, security, UV protection, and comfort.

MAKE A STATEMENT

Complement your decor, create a focal point, inspire conversation.

FIND SERENITY

With the right blend of natural light; lift your spirits, increase your comfort, or improve your sleep with total darkness.

SET THE SCENE

Create atmosphere, enhance the mood.

HELPFUL SCHEDULING

Automate to operate with your smartphone from anywhere in the world or voice control at home with Alexa or Google Home. Pre-schedule opening and closing of shades or let the sun dictate through sensors.

ENERGY SAVINGS

With the selection of the right fabric, heat loss and gain can be controlled, reducing heating and cooling costs.

ECO/SUSTAINABLE SHADES

TRANSFORM AND PERFORM

Our sustainable fabrics have the environment in mind as they are made from sustainable and energy-efficient fabrics. Our sustainable collection contains no PVC and many of these fabrics are made of Trevira CS, an inherently fire-retardant fabric. They are performance fabrics with all the qualities of a sunscreen and the look of an elegant fabric – the perfect fusion between functionality and aesthetics. Some of these fabrics are available with a metalized backing for extra efficiency. Eco/sustainable fabrics are the primary choice of designers and architects for their sustainability, functionality, and beauty.

**Automated Roller Shades in a Custom above-Ceiling Pocket,
Controlled by a Smart Home System
Material SG ELT 303 3% ♦ Colour Salt**

Automated Roller Shades, Open Roll
Material SG DX 203 3% ♦ Colour Dark Grey

SOLAR SHADES

DRAMATIC AND FUNCTIONAL

Sunscreen fabrics are performance or technical fabrics which give ultimate control over natural light. Our broad range of sunscreens make them appropriate for any application. Whether your goal is reducing solar heat gain, protecting interiors against damaging UV rays, or improving the comfort of any interior space through glare control or temperature control – sunscreens are the solution.

Sunscreens allow various degrees of outward visibility through different weaves and openesses. Sunscreens are available in 1%, 3%, and 5% openness meaning that they block 99%, 97%, and 95% respectively of the sun's rays from entering the interior, while allowing outward views.

Different colours of sunscreens, even at the same openness, provide varying levels of visibility with darker colours giving a sharper view than lighter colours. The compromise is that darker colours absorb more heat from the sun, while lighter colours reflect more of the sun's rays. One sunscreen series, DX, offers the best of both worlds: a variety of colours, but the outward facing side is white! This makes DX an ideal choice for condos that require the outward facing part of window treatments to be white.

SG CS SERIES

available in 1%, 3%, 5%, & 3% reflective

SG DX SERIES

available in 1% & 3%

Automated Roller Shades with Decora Cassettes
Material SG CS 103 3% with Reflective Backing ♦ Colour White

ENERGY SHADES

SOLAR CONTROL IN ANY COLOUR

Dark fabrics absorb and radiate heat while lighter reflect heat. Reflective-backed fabrics drastically improve the solar control performance of any sunscreen regardless of your colour selection.

SG CS REFLECT 103 3%

SAVINGS BY THE SQUARE METER

Reflective fabrics provide incredible energy savings year after year. Each square meter of reflective fabric can save over \$100 in yearly cooling costs versus glazing alone.

TAKE YOUR PICK

There are four series of Sun Glow exclusive reflective fabrics to choose from: CS Reflect, Apex Reflect, Summit Reflect, and Matrix.

SG MATRIX 2% & 5%

SG APEX REFLECT 2-3% & 4-5%

SG SUMMIT REFLECT 1%

DESIGNER SHADES

MAKE A STATEMENT

Extensive collection of translucent, transparent, and privacy fabrics to complement any décor.

Neo Chainless System, Open Roll Roller Shades
Material Lavish ♦ Colour Frosting

The Neo Chainless System is a Sun Glow innovation that allows shades to be pulled down by the bottom bar or shade pull, and smoothly retracted with a light tug.

Automated Roller Shades with 3" Fascia
Material Vinyl ♦ Colour Matte White

BLACKOUT SHADES

REST AND DARKENING

Our extensive selection of blackout or opaque fabrics block out the sun to provide room darkening. Blackout shades are appropriate in bedrooms to support better sleep, in media or theatre rooms, or anywhere else where room darkness is important.

Add side and bottom channels to further block out sunlight and ensure complete room darkening.

Automated Roller Shades with Vision V-102, Side Channels, and Bottom Channel
Material EZ900 ♦ Colour Diamond

DESIGNER FABRICS

TRANSPARENT

Available in linen, textured, or paper with sequins – all which allow full outward visibility and a softened glow of natural light. Ideal for northern exposure windows and complementing drapery.

PRIVACY

There will be a slight amount of light visible, but no outward or inward visibility. Privacy shades are perfect for a bedroom, bathroom, or where your windows face the street or the neighbours.

TRANSLUCENT

From a subtle sheen to pronounced textures, translucent fabrics provide privacy and warmth with diffused sunlight. In the evening with the lights on, only silhouettes can be seen from the outside.

CONSIDER COLOUR AND OPENNESS

opaque privacy 1%, 3% , 5% translucent transparent

Privacy, views, heat, and glare – virtually every functional aspect of a window shade is greatly impacted by openness and colour selection. Work closely with shading experts to select fabrics for each room in order to get the most out of your Sun Glow treatments.

What's Your Style?

ROLLER SHADE ACCESSORIES BRAIDS & PULLS

Our exclusive collection of designer shade accessories lets you add unique flair and personality to any Sun Glow shade. Mix and match braids and pulls to express your personal style, or get that coordinated look with one of Sun Glow's matching accessory pairings.

Our braids are produced from a variety of materials such as rich leather, delicate suede, pure cotton, and natural wool. The pulls are crafted from molten glass; beeswax-polished, reclaimed wood; and other quality materials.

INTERLUDE

CASCADING VIEWS AND PRIVACY

The Interlude system combines transparent fabric with opaque or translucent vanes for total control over privacy and light. You can easily position the vanes to determine the perfect light and atmosphere for any room.

Interlude Shades in Closed Position with Decora Cassettes
Material York ♦ Colour Derby

THE FINEST INTERLUDE FABRICS

Interlude Shades in Open Position with Decora Cassette
Material Republic ♦ Colour Pompeii

UP, OPEN, OR CLOSED

The Interlude system has two layers of fabric and rolls up and down similarly to your typical roller shade, however it can also roll up completely into the Decora cassette when an unobstructed outside view is desired. You can align the opaque or translucent vanes to either prevent or allow light through the shades. Vanes are available in 2", 3", and 5" heights.

Illusion Shade with Decora Cassette
Material Elegance • Colour White

THE FINEST ILLUSIONS FABRICS

A photograph of a desk setup in a room with large windows. The windows are covered with white horizontal blinds, which are partially open, allowing natural light to filter through. On the desk, there is a dark-colored laptop, a red stapler, and a portion of a beige office chair with a quilted pattern. The overall atmosphere is bright and professional.

ILLUSIONS

FLEXIBLE ATMOSPHERE

The Illusions system combines transparent fabric with opaque or translucent vanes for total control over privacy and light. These vanes tilt open and closed, or even roll up completely into the Decora cassette, allowing you to determine the perfect light and atmosphere for any room.

Illusion Shade with Decora Cassette
Material Elegance ♦ Colour White

PANEL TRACK

DRAMATIC AND FUNCTIONAL

Sun Glow's Panel Track system offers a contemporary design and is ideal for large windows, patio doors, or room dividers. The panels can be made in varying widths and configured to open from the left, right, or centre splits.

Wand Operated Panel Track
Mixed Materials

ROMAN SHADES

CLASSICAL REFINEMENT

Roman Shades add a luxurious and sophisticated feel to a room. Sheer and simple while lowered, but as the shade is raised, pillowy volumes of soft fabrics cascade and stack for an elegant effect.

Automated Roman Shade
Material Boardwalk ♦ Colour Ice Cream

ATLAS

BOTTOM UP SHADES

By simply inverting the roller shade, Atlas finds new harmony and balance between daylight and personal privacy. Covering windows from the bottom up obscures sight lines, and the top opening permits the warmth and radiance of natural light.

Atlas Automated Roller Shades with Vision Cassette
Material Satin Privacy ♦ Colour Ice

SILENT NEO

A SUN GLOW INNOVATION

Pull shades down by the bottom bar or shade pull. Now silent and in an improved design. Completely chainless, easy to operate, and safe for spaces with small children.

e

GEMINI

DUAL SHADES

Designed to combine two fabrics in one system, each shade is operated independently for precise control of light and privacy. Both shades are concealed by an elegant aluminum fascia.

Consider our fabric options with a series of the same fabrics in both translucent and opaque openesses for complete coordination.

Automated Gemini Dual Roller Shades
Front Shade Material Linen ♦ Colour Zanzibar
Back Shade Material Lavish ♦ Colour Frosting

SKYLIGHTS

INCLINED AND ANGLED

Tension and channel guides keep Sun Glow roller shades taut and looking sharp, even on angled windows such as skylights. The Somfy Sonesse 30 motor operates sky light shades for effortless convenience.

ARIA SYSTEM

SIMPLE, SMOOTH, AND SILENT

The all new Roller Shade chainless system made simply and for small shades. Includes a new speed reducer to provide a slow rise, an easily adjustable upper limit, and a beautiful new curved valance.

EXOSCREEN

ENJOY OUTDOOR LIVING

ExoScreen improves your outdoor living environment by solving common exterior concerns. Reduce exposure to harmful UV rays, enclose your outdoor living area to protect from insects, protect against heavy winds, and more.

AUTOMATION

SMART, POWERFUL, AND CONVENIENT

Sun Glow has your windows covered when it comes to home automation. Recharge your shades quickly and easily with a plug-in charger or solar panel, or hardwire into your power grid depending on the sophistication of your application.

Whether Somfy or Sun Glow rechargeable motors are selected, all can be controlled using a remote, your smartphone or tablet, home automation systems, voice control, sun sensors, or timers.
