

The image shows the interior of a sunroom or enclosed porch. The ceiling is covered with a series of parallel, light-colored, fixed shades held in place by a dark metal frame. Below the shades, a large wall of floor-to-ceiling windows with dark frames provides a view of the outdoors. The view outside includes a green lawn, some trees, and buildings in the background. The floor inside is a reddish-brown color. In the lower-left corner, there is a semi-transparent dark box containing the text "Fixed Shades".

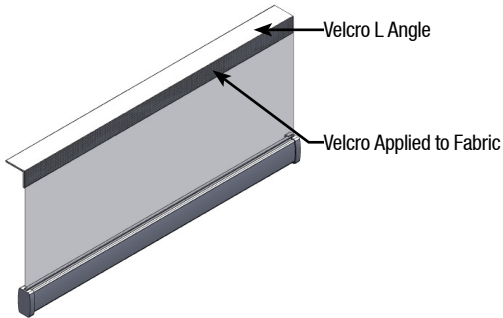

Fixed Shades

Fixed Shades

Features & Benefits

Option 1: Velcro Angle Ceiling Mount with Bottom Bar

(Order Code: FX-VB)

This application is for ceiling mount only. Includes velcro angle at the top, sewn velcro at the top of the fabric, and a bottom bar to keep the fabric taut.

Option 2: Velcro Panel

(Order Code: FX-V)

These panels are made for special window shapes. Velcro with adhesive backing will be supplied.

How To Measure

A minimum depth of 1" (2.5cm) is necessary for installation.

Measure both width (A) and height (B)

For Velcro Panels (FX-V) give all measurements (without deductions) and a template of actual window dimensions. When measuring arches, please provide the width at the bottom of the arch and at least 3 height measurements, one of which must include the full height of the arch.

Now you can order Interlude fabric in a fixed shade.

Choose between an open position with one layer of fabric, or a closed position with two layers of fabric.

Price Grids now list Interlude fabrics for this option, price is the same regardless of open or closed selection.

A closed position Interlude Fixed Shade is shown here in the window (option 2: Velcro Panel).
