Sunscreens

Valance and Bottom Bar Colours:

* As shown: Twinscreen 3% (black), 3" Fascia (black), Accubar Bottom Bar (black)

Sunscreen fabrics are performance or technical fabrics which protect interiors against damaging UV rays and improve the comfort of interior spaces through glare or temperature control. Sunscreens are available in 1%, 3%, and 5% openness, providing outward visibility during daylight hours while maintaining privacy. The opposite is the case in the evening.

Features & Benefits

- 5 year warranty on defects in materials or workmanship
- Available with a selection of valance, bottom bar and operation options
- Fabrics are highly durable and easy to clean
