FEATURES AND BENEFITS

- Does not require a chain.
- Can easily be operated by pulling the shade from the center of the bottom bar or blind pull to the desired height.
- Can easily be retracted by a slight pull of the bottom bar or blind pull.
- Fits jamb depths of 2.5" for inside flush mount.
- Shipped as a completely tested unit, with no assembly required.
- Mounting brackets and shade holder make for a simple installation.
- Smart lock and snap release allow for easy dismounting when required.
- Neo 1" cassette choices include Decora 8, 12 and 16 cassettes.
- Neo 1.5" optional valance choices include Fabric valance, Vision, Decora 12, and Decora 16 cassettes.

LIGHT GAP MAY INCREASE WHEN:

1. USING FABRICS WHICH TEND TO TELESCOPE.
2. THE WIDTH TO HEIGHT RATIO IS 1:2.5 OR GREATER
3. LATERALLY MOUNTING NEOSHADE. LIGHT GAPS WILL INCREASE BY AT LEAST 0.25" ON EACH SIDE.
